Cobblestone Neighbors:

If you are receiving this email or find this letter on file on our sccobblestone.com website, it's because there were errors and omissions on the cookbook published this month.

I sincerely apologize – no excuses – I was typing fast, ran spell-check, had a cursory look by someone else and I still missed some key items!

Please print this and keep it tucked in the front of your neighborhood cookbook. And if you find any other edits needed, kindly reach out to me and I'll humbly publish another set of revisions. I'm sure you cooks out there understand what I meant but, I don't want to leave a recipe to chance – we have some incredible cooks in our neighborhood – all of which deserved a 100% accurate publication of our cookbook.
